

**PRODUCT: BLACK FLUX – CONTINUED
SILVER BRAZING FLUX**

- Water diluted flux retains good suspension without settling.
- Spatter on heating – none with concentrated flux, slightly with water diluted flux.
- Flux residue removal is easy with hot water.
- Wetting ability is excellent.
- Oxide absorption is greater than with ULTRA FLUX.
- Braze joint quality is excellent with BLACK FLUX.
- BLACK FLUX has a long storage life without crystallizing or caking, guaranteed up to 12 months when left in original unopened container.
- BLACK FLUX conforms to the various AWS, AMS, and Government specifications which are listed on the flux label.
